HERITAGE WHEN THE SEVEN JACUZZI BROTHERS IMMIGRATED TO THE UNITED STATES, THEY HAD NO IDEA THAT A PUMP THEY DESIGNED FOR ORCHARDS WOULD REVOLUTIONISE HYDROTHERAPY IN THE HOME. WHILE THE FAMILY'S CRITICAL NEED TO CHANGE THE LIFE OF A CHILD TRIGGERED THIS THERAPEUTIC INVENTION, A DESIRE FOR WELLNESS PIONEERED AN INDUSTRY.

## THE NAME THAT LAUNCHED AN INDUSTRY CONTINUES TO REDEFINE IT

By 1920 all of the Jacuzzi Brothers had immigrated to the United States, determined to change the world with their inventions. Starting by laying roots in the aviation industry, their invention of a hydraulic aircraft pump led them to the creation of a deep well agricultural pump.

By the 1940's, 15-month-old Ken Jacuzzi was diagnosed with debilitating rheumatoid arthritis. When traveling for hydrotherapy treatments at a distant hospital began to wear on his child, Candido Jacuzzi redesigned the agricultural pump into what's known as the J-300™ hydromassage pump, turning any soaking bathtub into a relaxing and rejuvenating hydro-therapeutic spa, and allowing Ken to return to the family home.

Overwhelming demand for the hydromassage pump led to the founding of Jacuzzi® in 1956 and the whirlpool bathing category was born. Since then, the company continued to lead and grow the new industry, from integrating pumps and jets into their flagship bathtub to launching their first bath that worked both indoors and outdoors. The first to highly-engineer jets, the Jacuzzi® Brand has become synonymous with jetted hydrotherapy, well-being and performance.

With a foundation in health and wellness and a dedication to research and innovation, Jacuzzi continues to develop products that improve the lives of both high-performance athletes and everyday people while leading the industry.

### PERFORMANCE

Jacuzzi<sup>®</sup> has a long and successful history of partnering with athletes and professional teams from around the world who recognise the value of recovery within their training programs. Our Jacuzzi<sup>®</sup> hot tubs support faster muscle recovery and enable athletes to train harder, more often.

Our Jacuzzi® J-400<sup>™</sup> series takes elite performance from the race track straight into recovery. The hydromassage gives me enhanced soft tissue therapy to carry me into tomorrow's performance and beyond.

#### Kim Morrison

I'm immensely proud to become part of the Jacuzzi<sup>®</sup> family, with its history rooted in hydrotherapy and its present fixed on optimising the athletic journey. Jacuzzi<sup>®</sup> supporting me during the UK lockdown and keeping me in the water has been fundamental to making sure my training, recovery and, ultimately, my performance levels

Adam Peaty MBE

James Clark, Chief Executive

### WELLNESS

Jacuzzi<sup>®</sup> is serious about wellness. All of our products are designed with the aim of improving people's lives and ultimately helping them Feel BetterTM Everyday. These values stem back over 70 years when the Jacuzzi family invented the first hydrotherapy pump to help improve Ken Jacuzzi's life having been diagnosed with rheumatoid arthritis. Today we are proud to continue that legacy.

One of the best things about our Jacuzzi<sup>®</sup> hot tub has been getting the family together. We are a family of teenagers and trying to get everybody together in one place at the same time is impossible. As soon as the Hot tub arrived, things changed.

Andrea McClean

Jacuzzi<sup>®</sup> hot tubs have been part of our life for 19 years. We're on our second tub, and I always say it's one of the best things we ever bought when the kids were young. It really got us all chatting and spending quality family time together."

Sally Gunnell OBE

I'll tell you why it's awesome. At first, it was just for me when I threw parties, how tubs were cool. Then it became for the kids who absolutely love it, rain, hail or shine. Now something else has happened, now that I train a lot, in my 40's I train heavily, I now use it as a massage treatment after my training and it has been a game changer.

Peter Andre

## HYDROMASSAGE

More jets do not equal a better hydromassage, but the right jets do. Jacuzzi® Brand hydromassage utilises the Aqualibrium® formula – the perfect mix of air and water – to deliver a jetted massage that reduces stress and lower back pain, improves sleep and post exercise recovery, and alleviates restless leg syndrome, cramps, arthritis and fibromyalgia, improving your overall wellbeing. As simple as enjoying a cup of coffee, a regular hydromassage routine can be more beneficial than you realise.

#### PERSONALISED MASSAGE

By studying the anthropometric dimensions of the 5<sup>th</sup> percentile of females and 95<sup>th</sup> percentile of males, we can design hot tubs based on the average dimensions of 90% of the population to deliver a personalised massage.

#### **UV-C SYSTEM** $\mathcal{P}$

- Nature-inspired technology neutralizes pathogens
- Works with traditional chlorine or bromine sanitizer for sensitive skin
- Same technology used in bottled drinking water, aquariums, and hospitals

#### OUR HANDS-FREE APPROACH TO WATER CARE

#### CLEARRAY ACTIVE OXYGEN™ CLEAN WATER SYSTEM (🎉

CLEARRAY Active Oxygen™ technology harnesses the power of air and light to work harder and clean the water longer. It's an advanced oxidation process that destroys contaminants and water-borne pathogens.

Hot Tub water is injected with a low-dose of ozone and mixed thoroughly. Ozonated water is then exposed to a UV-C bulb to energize the molecules. When ozonated water is treated by the UV-C rays, active oxygen is unlocked through a natural reaction called advanced oxidation.

Super-powered active oxygen destroys contaminants and water-borne pathogens to cleanse the water. The clean, clear water is then pumped back into the hot tub where it continues to clean and polish the water, breaking down the contaminants so it can be easily be removed through the filters.

#### 5-STAGE FILTRATION PROCESS\*

**STAGES &7** 

The surface skimming weir and ProCatch™ bag work together to clean the surface while trapping large debris for easy removal.

STAGE

The ProClarity® filter on the ProStream™ circulation pump helps ensure clean, sparkling water quickly by catching tiny debris and particles that other filters miss.

STAGE

The ProStream™ circulation pumps pulls the water through a ProClear® filter that works to clarify water even when the jets are not running.

STAGE

The ProClear® filter operates with your hot tub's hydromassage pump to remove large and small particles providing the cleanest water.

All acrylic models in every collection utilize CLEARRAY Active Oxygen™ technology and multi-stage filtration

\*Stages of filtration vary by collection.

## CHOOSING YOUR MODEL

#### I. SELECT SIZE AND MASSAGE OPTIONS

A common misconception about hot tub size is that you're limited to models with less seating options when garden space is limited. The good news is that a hot tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few centimetres.

#### 2. CHOOSE LOUNGE VS. OPEN SEATING

A lounge seat offers a full-body massage option and a more secluded spa experience.

An open seating model offers more massage options and makes communicating with others in the hot tub easier.
