

Jacuzzi[®]
J5 Collection

Immerse yourself in more than water

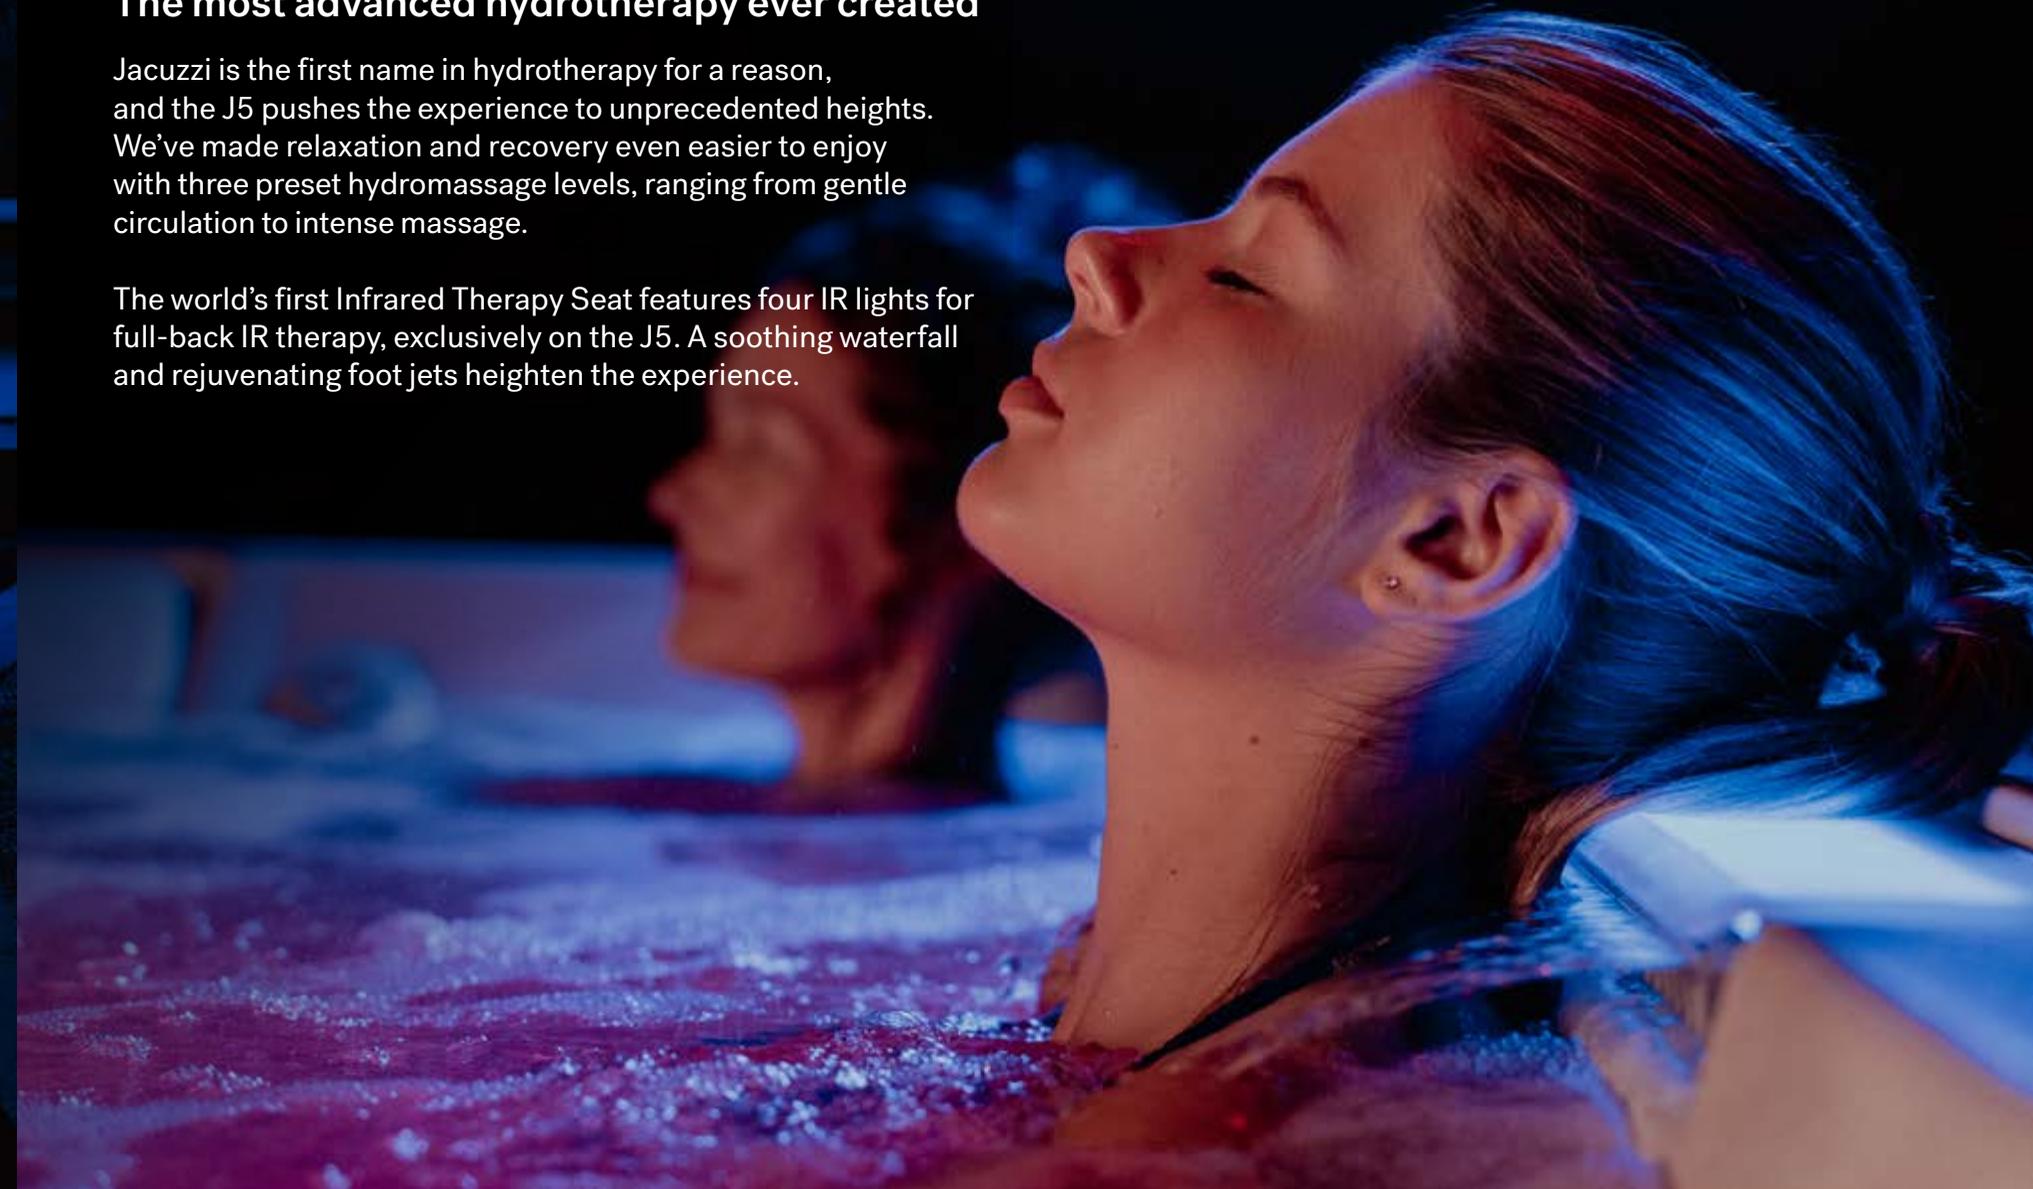

Go all in with a multisensory experience that restores both body and mind. The J5™ brings you closer to your wellness goals through a powerful blend of proven therapies, perfected by the most trusted name in hydrotherapy. With features you won't find anywhere else, the J5 redefines what a hot tub can be.

The most advanced hydrotherapy ever created

Jacuzzi is the first name in hydrotherapy for a reason, and the J5 pushes the experience to unprecedented heights. We've made relaxation and recovery even easier to enjoy with three preset hydromassage levels, ranging from gentle circulation to intense massage.

The world's first Infrared Therapy Seat features four IR lights for full-back IR therapy, exclusively on the J5. A soothing waterfall and rejuvenating foot jets heighten the experience.

It's a feast for the senses

Never in the history of hot tubs has there been a multisensory experience like the J5™. And it starts with immersive experience modes. Each mode features a coordinated blend of hydromassage, IR therapy and lights, depending on what you want to achieve.

Immersive experience modes

Post-Workout

Target sore muscles to relieve tension and recover

Sleep Well

Wind down for sleep with a tranquil soak in soothing hot water

Infrared Therapy

Promotes healing, eases pain, and relieves inflammation

Everyday Rejuvenation

Refreshing massage promotes circulation and helps reset from daily stress

Celebration

Watch lights dance to the music and just let go

Dual waterfalls

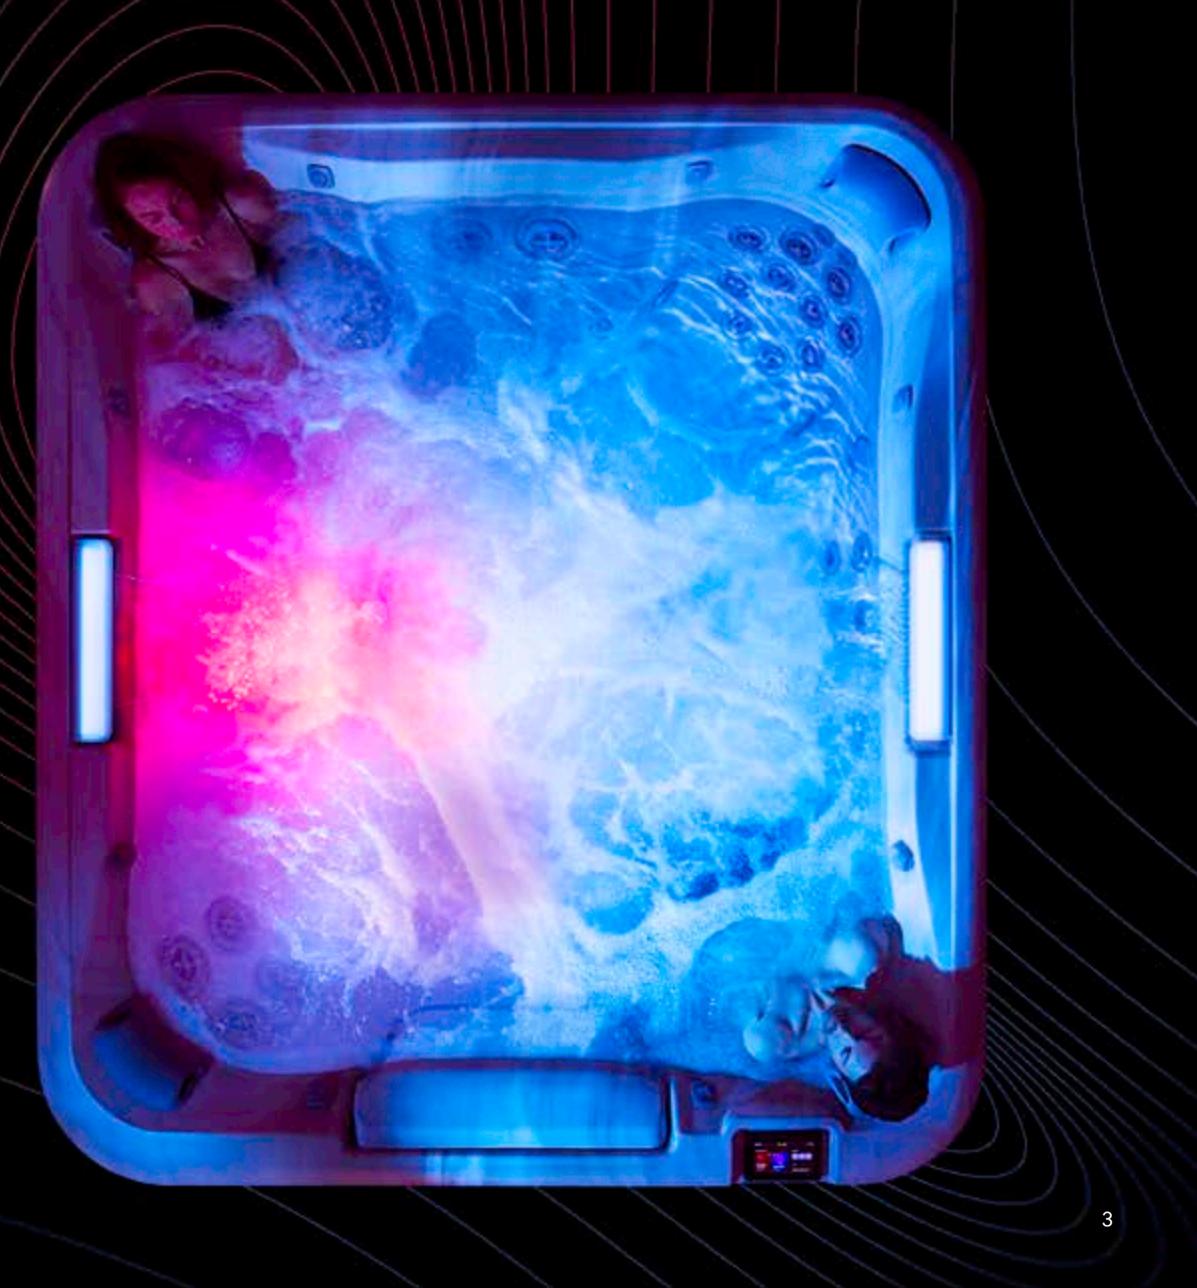

A rich wash of color illuminates the cascading waterfalls and interior lighting bathes the water in a brilliant glow.

Responsive lighting

The glowing lights brighten as you approach to welcome you and they stay bright while you enter and exit. Interior lights adjust in intensity to soundscapes or music.

Pioneering sound design

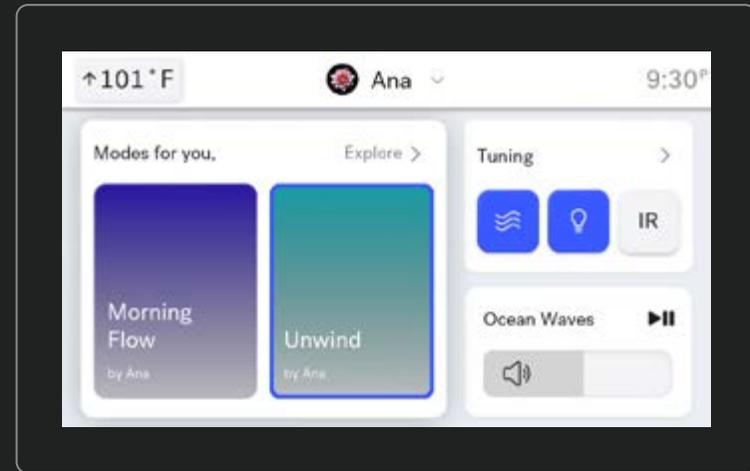

Choose from a curated collection of soothing soundscapes to set the tone for a relaxing escape. Adjustable pillows with integrated surround sound system is standard.

Personalized for each user

Each family member can tailor the spa settings to their liking, so each experience is unique and personal. Just save your hydrotherapy, lights, and audio preferences to a user profile, and the J5™ keeps your settings ready on the home screen.

With the J5 SmartTub® app, you can track your hydromassage and Infrared therapy usage, providing personalized insights to optimize your wellness routine.

See how easy it is to personalize your J5.

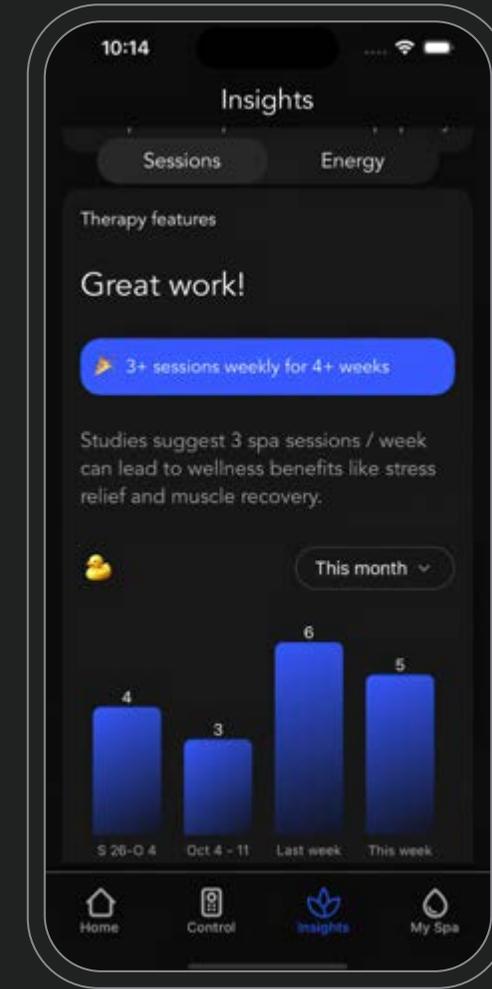

Smarter than ever

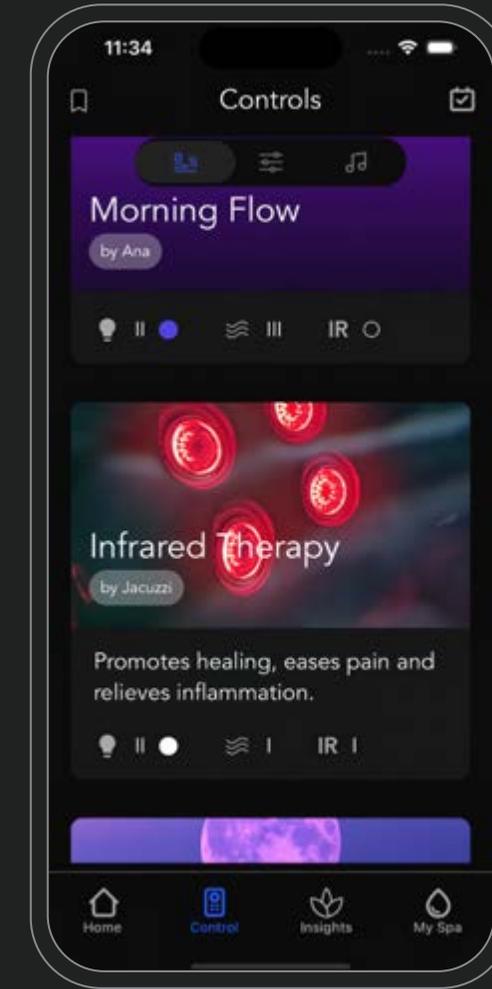

Our exclusive SmartTub® system is like a remote control and command center that lets you monitor, operate, and protect your Jacuzzi® hot tub.

The SmartTub® app for J5™ achieves an unmatched degree of intuitive control. Easily choose experience modes and soundscapes, generate user profiles, set schedules, track IR usage, check energy savings, and take charge of nearly every aspect of your spa.

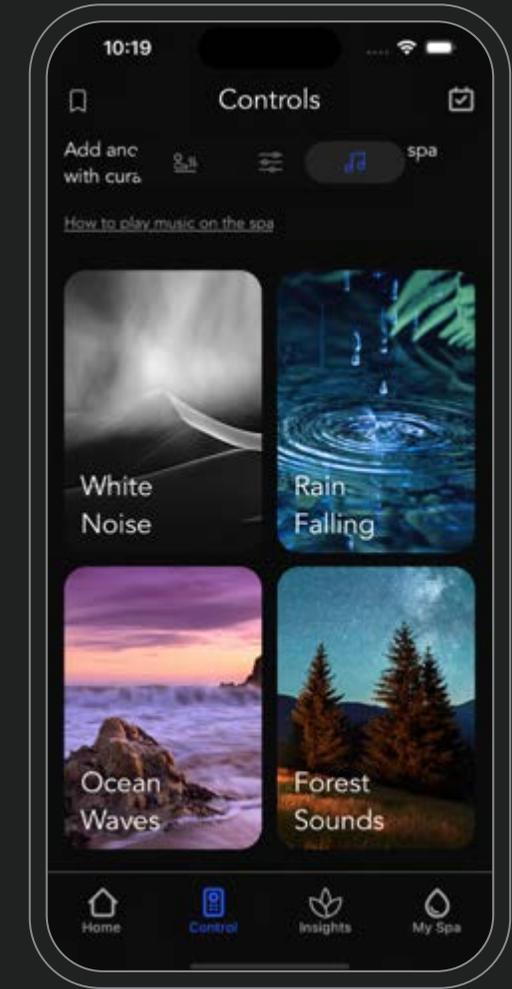

Controls are simple and intuitive, and the integration between the app and the spa interface is seamless. Everything looks, feels, and works as one.

The next generation of water care

So fresh. So clean.¹ And 99.999% chlorine-free. True Water[®] makes spa water fresh and clear without all the harsh chemicals. You'll see, feel, and smell the difference.

The most beautiful water

True Water uses oxygen-filled nanobubbles to continuously cleanse and purify the water. There are no traditional cleaners like bromine or salt.

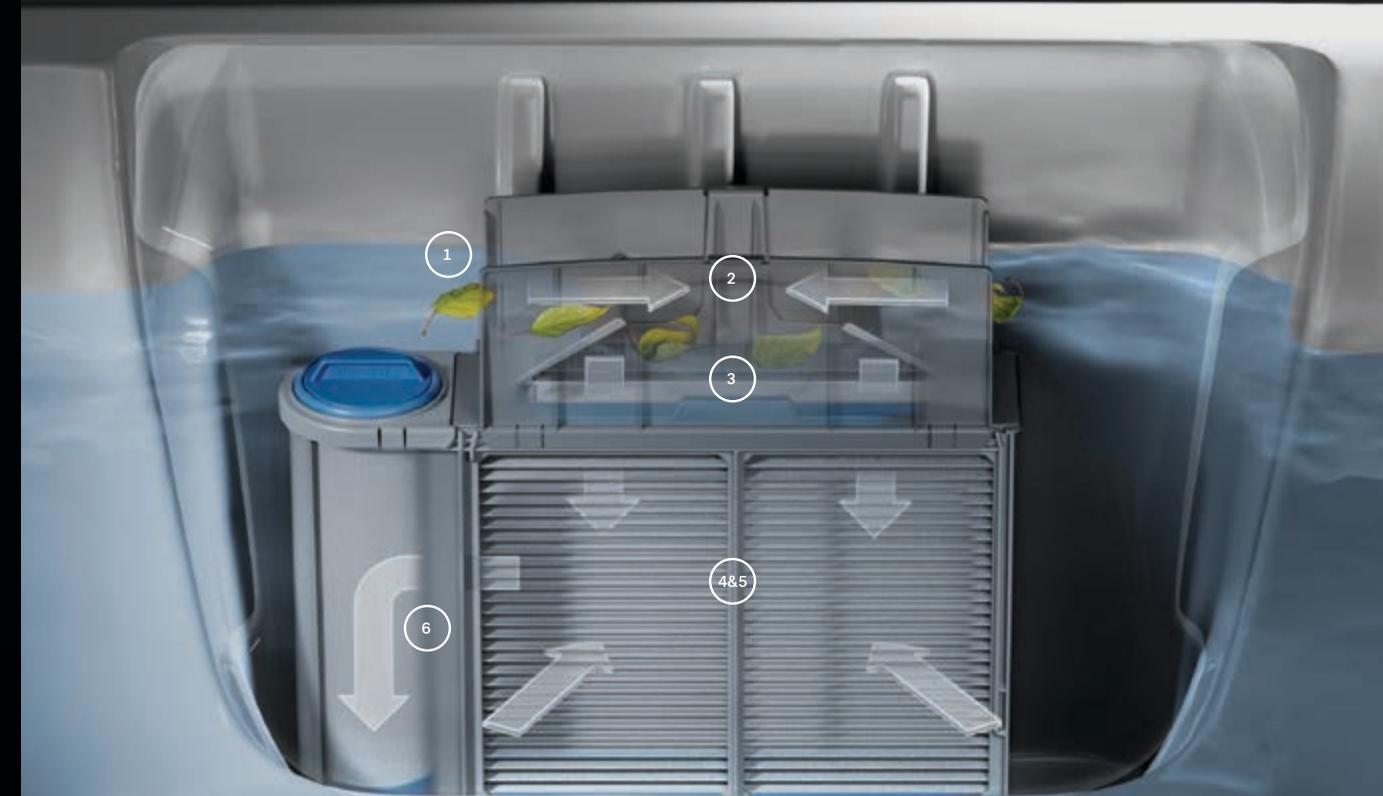

Truly easy to care for

Most spas require daily upkeep but with True Water, you only need to spend about 15 minutes per month caring for your water.

¹ Clean is defined as the removal of microscopic debris (down to 3-micron level, varies by model) from the water.

More clear water. More room to relax.

The J5™ is the first Jacuzzi® collection with a 6-stage filtration system—keeping your water clearer and fresher for longer. The unique space-saving design of the filtration system takes up far less room, making space for an additional seat and providing easy access for maintenance.

6-stage filtration

Stage 1
Two weir gates pull water into the filter and trap large debris for easy removal.

Stage 2
The skimmer basket has a reusable tray to catch and easily dispose of large debris.

Stage 3
A removable ProCatch™ mesh screen captures small particles that settle on the water's surface.

Stages 4 & 5
Two unique 50 sq ft, flat ProClear® pleated filters maximize debris collection in a small space.

Stage 6
The ProClarity® polishing filter traps tiny particles down to 3 microns to improve water clarity.

Designed for every body

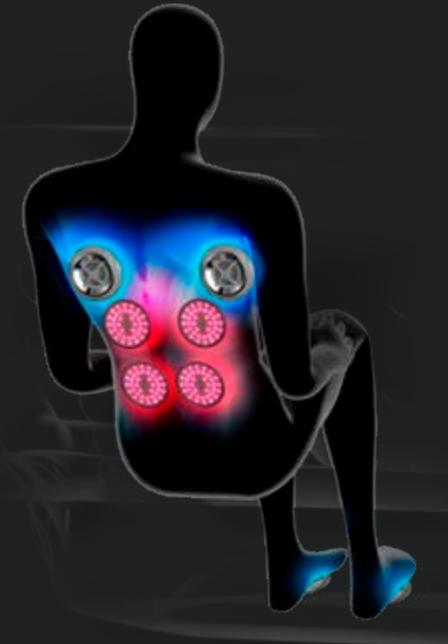

The J5™ is thoughtfully designed to cater to the diverse ergonomic needs of your family and guests. Inside, you'll find a mix of deeper and shallower seats, and a variety of jet configurations to provide invigorating hydromassage right where you want it.

FX therapy lounge

Neck, shoulder, back, palm, hip, legs, and foot relief

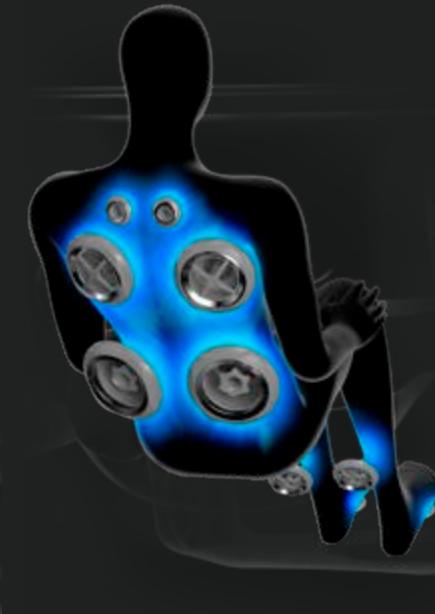

Our most fully loaded lounge features an array of FX jets that deliver a stimulating, spiral-action massage targeting key tension areas. It's an immersive hydromassage experience that melts away muscle tightness, improves mobility, and promotes deep relaxation.

Infrared therapy seat

Back and foot relief

Our most advanced hydrotherapy—Infrared and Red Light—now has its own dedicated seat with four IR lights for full-back Infrared therapy, only on the J5. A soothing waterfall and rejuvenating foot jets heighten the experience.

MX therapy seat

The original in low-back relief

Ease into this deeply contoured seat to release tension in the lower back with a high-volume, low-pressure massage. Maximized air output delivers a soothing deep-tissue massage. Paired with neck jets for a fully relaxing experience.

RX therapy seat

Comforting back and shoulder relief

A ring of spinning RX jets targets back and shoulder muscles to soothe stiffness and release tension, while neck jets add further relief. It plays a vital role in our highest performing hydromassage.

ProAir™ seat

Neck, shoulder, and back relief

Delivers the best of both worlds, pinpointing muscles along the neck and shoulders, while also providing relaxing hydromassage to larger muscles down the back.

Go ahead. Immerse yourself.

Transform your wellness routine with the new J5™ collection. More personal. More intuitive. More than you imagined a hot tub can be. Step in and feel the difference.
